

# Ball Field Complex Designer

## Plan/Design at least:

2 baseball fields (area and perimeter fencing)  
1 softball field (area and perimeter fencing)  
parking (area and perimeter sidewalk)

Baseball Field Dimensions:

Softball Field Dimensions

Seating Area:

Parking Area Dimensions:

Sidewalks:

## Things to consider in design:

concession stand (area of structure)  
bathroom facilities (area of structure and/or area of each gender bathrooms)  
batting cage (area of structure)  
bull pin facilities (area of space)  
more fields to help with current congestion (area and perimeter fencing)

**Land is purchased or described in size by acre.**

*A square enclosing one acre is approximately 69.57 yards, or 208 feet 9 inches (63.63 meters) on a side.*

*As a unit of measure, an acre has no prescribed shape; any area of 43,560 square feet is an acre.*
